This is the OCR-endorsed publication from Bloomsbury for the Latin AS and A-Level (Group 3) prescription of Catullus' poems 5, 6, 7, 8, 10, 11, 17, 40, 70, 75, 85, 88, 89, 91 and 107, and the A-Level (Group 4) prescription of poems 1, 34, 62 and 64 lines 124–296, giving full Latin text, commentary and vocabulary, with a detailed introduction that also covers the prescribed poems to be read in English for A Level.

The poetry of Catullus is some of the most accessible and vivid literature ever composed. Yeats described his poems as ones which 'young men, tossing on their beds/ rhymed out in love's despair/ to flatter beauty's ignorant ear' and this selection reveals a writer baring his feelings on the page in lines of unforgettable force. He is rude and crude when he wants to be, but also elegant and wistful, sometimes in the same poem. Above all, he recreates what it was to be a young poet in the heady world of the Roman republic.

Volume II of Major Poems of the Hebrew Bible deals with 85 Psalms (83 poems) and the poems in Job 4-14, and aims at presenting an integrated prosodical theory which is able to bypass the highly controversial question of metrics. There are two approaches which initially are kept apart on grounds of method: structural analysis and the counting of the original, i.e. pre-Masoretic, syllables. Each poem receives a compact description of structure which gives a reasoned delimitation of cola, verses, and strophes. In a separate operation, the syllable counts for each word, colon, verse, strophe, stanza, section and poem are recorded in a comprehensive Appendix. All the poems under discussion show a precise integer as the average of syllables per colon. For half of them this is 8.00, the others have either 7.00 or 9.00. The 9.00 is a ceiling: there is no Psalm with a higher average. Combining the two approaches, the author shows that the poets themselves did count their syllables, and how they were able to mesh the syllable figures with the structural units of their compositions in a virtuoso combination. The greatest challenge of this enterprise is to delimit and objectively the correct colometry for all the songs, as the figure of syllables per colon depends on the right amount of cola. There are only about 30 Psalms which have a cola figure that can be considered beyond doubt.

Fortunately, in the Book of Job the correct number of cola is certain for most chapters. Here we meet the number 8 again as a normative figure.

The purpose of the book is to enhance the concept of Technique in the teaching and practice of Social Work. Over the years Technique has not been stressed as a part of practice even though the actual practice of Social Work consists of the utilization of techniques in addition to theory and the process of assessment and diagnosis. The book seeks to achieve its goal in four ways. It addresses the way the concept of Technique has or has not been used over the years. It addresses the need for a clear definition of technique. It analysis the qualities that Technique should have at this point in our history of clinical practice. It then formulates and presents a definition of technique for our thesis based on this definition. It then presents a brief discussion of 101 Techniques discussed in contemporary literature by discussing each one’s place in practice a bit about its history and necessary knowledge skills to use responsibly. It addresses the latter by grouping a level of risk involved in its utilization.
"a significant contribution to the field great insight, learning, and clarity." -- George Hart III, University of California, Berkeley "A master's hand is behind this volume." -- Religious Studies Review "eminently readable artfully explains the initial spirit and modern understanding of Tamil bhakti poetry." -- Pacific Affairs "Norman Cutler's major achievement in Songs of Experience is the new critical perspective he provides on bhakti poetry." -- The Journal of Religion Cutler reveals the link between Tamil poetry and religion. His fluent translations make the poems -- songs of the experience of God -- live for us as did for their first audience nearly fifteen centuries ago.

This book explores the art of writing poetry from a practice-based perspective. Split into three sections, it covers poetic form, tropes, structural devices and approaches poets have developed and used in their work. Each chapter unpacks a particular concept or form, then demonstrates how this works through examples and creative exercises.

"Jean-Baptiste Du Bos' Critical Reflections on Poetry and Painting is one of the seminal works of modern aesthetics. Du Bos rejected the seventeenth-century view that works of art assessed by reason. Instead, he believed, audience members have sentiments in response to artworks. Their sentiments are fainter versions of those they would feel in response to actually seeing what the work of art imitates. Du Bos was influenced by John Locke's empiricism and, in turn, had a major impact on virtually every major eighteenth-century contributor to philosophy of art, including Voltaire, Montesquieu, Diderot, Rousseau, Herder, Lessing, Mendelssohn, Kames, Gerard, and Hume. This is the first modern, annotated and scholarly edition of the Critical Reflections in any language"--

This book traces the evolution of traditional English verse structures from their Old and Middle origins to the Modern English period.

This monograph studies how, across the Folio of 1681, Marvell's poems engage not merely with different kinds of loss and aspiration, but with experiences of both that were, in mid-seventeenth-century England, disturbingly new and unfamiliar. It particularly examines Marvell's preoccupation with the search for home, and with redefining the homeland, in times of civil upheaval. In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant. Although focusing primarily on poems in the Folio of 1681, this book considers those poems in relation to others from the Marvell canon, including the Latin poems and the satires from the reign of Charles II. It closely considers them as well in relation to verse by poets from the classical past and the European, especially English, present.

The final two volumes in the CWE contain an edition and translation of Erasmus's poetry. For Erasmus scholars this work affords the first opportunity to evaluate and analyse Erasmus' poems in English. And for those interested in Renaissance and Reformation poetry in general, these offer an intriguing look at the work of one of the towering figures of the period writing in a genre that was, for him, unusual. The annotations include a path-breaking commentary piece by Harry Vredeveld on Erasmus' most famous poem, 'Poem on the Trouble of Old Age.' Another important feature is the appearance of the original Latin of each poem alongside the English translation. Volumes 85 and 86 of the Collected Works of Erasmus series - Two-volume set.

This work provides a fresh approach to the overall framework of the poems we find in Job 3-42,6, and offers a new theory on the demarcation and meaning of the three speech-cycles which give structure to this composition.

The Old Testament books of wisdom and poetry carry themselves differently from those of the Pentateuch, the histories or the prophets. The divine voice does not peal from Sinai, there are no narratives carried along by prophetic interpretation nor are oracles declaimed by a prophet. Here Scripture often speaks in the words of human response to God and God's world. The hymns, laments and thanksgivings of Israel, the dirge of Lamentations, the questionings of Qohelet, the love poetry of the Song of Songs, the bold drama of Job and the proverbial wisdom of Israel all offer their textures to this great body of biblical literature. Then too there are the finely crafted stories of Ruth and Esther that narrate the silent meanings of Lamentations, the questionings of Qohelet, the love poetry of the Song of Songs, the bold drama of Job and the proverbial wisdom of Israel all offer their textures to this great body of biblical literature. sources and theology. In addition, a wide range of interpretive approaches is canvassed in articles on hermeneutics, feminist interpretation, form criticism, historical criticism, rhetorical criticism and social-scientific approaches. The 'Dictionary of the Old Testament: Wisdom, Poetry and Writings' is sure to command shelf space within arm’s reach of any student, teacher or preacher working in this portion of biblical literature.

This is a book that demonstrates every poetic style from A to Z and it does so with much joy and laughter flowing through the pages.

PSALMS, Part 2, and LAMENTATIONS is Volume XV of The Forms of the Old Testament Literature, a series that aims to present a form-critical analysis of every book and each unit in the Hebrew Bible. Fundamentally exegetical, the FOTL volumes examine the structure, genre, setting, and intention of the biblical literature in question. They also study the history behind the form-critical discussion of the material, attempt to bring consistency to the terminology for the genres and formulas of the biblical literature, and expose the exegetical procedures so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts. This volume completes Erhard Gerstenberger's widely praised discussion of the psalms literature begun in Volume XIV, and includes as well an admirable study of the book of Lamentations.

Gerstenberger interprets the different kinds of songs and prayers that comprise the book of Psalms in light of their sociohistorical settings and provides a concise formal and structural analysis of each biblical text based on an illuminating comparison with other ancient Near Eastern prayers and hymns. Seeing the biblical writings in relation to the social, cultic, religious, and theological conceptions of Israel's neighboring peoples allows contemporary readers to better grasp the purpose and spiritual meaning of the psalms and Lamentations to the Jewish community that composed them.

Gray refined the classifications offered up by Lowth in his ‘Lectures on the Sacred Poetry of the Hebrews’. Gray developed ingenious readings of texts which had been previously been seen as corrupt and readable only with major emendations. Gray deduced principles of Semitic poetry which allowed these texts to be sensibly read without emendation.

Boethius (c.480–c.525/6), though a Christian, worked in the tradition of the Neoplatonic schools, with their strong interest in Aristotelian logic and Platonic metaphysics. He is best known for his Consolation of Philosophy, which he wrote in prison awaiting execution. His works also include a long series of logical translations, commentaries and monographs and some short but densely-argued theological treatises, all of which were enormously influential on medieval thought. But Boethius was more than a writer who passed on important ancient ideas to the Middle Ages. The essays here by leading specialists, which cover all the main aspects of his writing and its influence, show that he was a distinctive thinker, whose arguments repay careful analysis and who used his literary talents in conjunction with his philosophical abilities to present a complex view of the world.
