Mar 30, 2020 · This wave of bubonic plague became known then as the Pestilence – or later, the Black Death. Advertisement By November 1348 the disease had reached London, and by New Year's Day 1349 around 200 bodies a day were being piled into mass graves outside the city.

[What Rome Learned From the Deadly Antonine Plague of 165 ...](#)

The brutality of the Black Death was matched only by the speed of its rampage across medieval Europe. One third of the English population was wiped out. The feudal system – brought into existence nearly 300 years earlier under William I – was damaged, and the unquestioned belief in the supremacy of the Catholic Church was destroyed.

[The Black Death](#)

Because no one was quite sure how the Black Death was spreading, many simply chose to avoid anyone with symptoms. Some towns built pestilence houses, where the sick could be taken to die. Others boarded up entire houses as soon as someone inside took ill. Those who could afford to do so fled to the countryside.

[Black Death - Saylor Academy](#)

The Black Death (also known as the Pestilence, the Great Mortality or the Plague) was a bubonic plague pandemic occurring in Afro-Eurasia from 1346 to 1353. It is the most fatal pandemic recorded in human history, causing the death of 75–200 million people in Eurasia and North Africa, peaking in Europe from 1347 to 1351. Bubonic plague is caused by the ...

[The Catholic Church and the Black Death in the 14th](#)

The rats brought with them the Black Death, the bubonic plague. Europe had heard of the bubonic plague, which had ravished central Asia in the early 1300s. It is hard to have an accurate description of numbers, because throughout the Middle Ages numbers are generally used poetically rather than accurately.

[Black Death | Definition, Cause, Symptoms, Effects, Death](#)

The Pestilence Reaches Britain The plague arrived in the British Isles, via a Gascon sailor, in Melcombe in Dorset in June 1348. The first city to witness its 'grievous ornament', the telltale black pustules or 'buboes', would be Bristol. London's outbreak coincided with Candlemas (1 November); by the following July it had reached Durham.
